## PROJECTS

### Personal Website - [heavenlee.xyz](http://heavenlee.xyz)

My own personal website which I built using the Bootstrap framework. Designed to be responsive on all devices. Registered domain name and configured DNS. Setup hosting with Github Pages.

*Built with **HTML**, **CSS**, **jQuery**, and **Bootstrap**.*

### HeavenLee Themes - [heavenleethemes.tumblr.com](http://heavenleethemes.tumblr.com)

I built custom themes for Tumblr. My themes feature customizable options which lets the user add a more personal touch to the layout and design. I use Github for version control and documentation for my themes.

*Built with **HTML**, **CSS**, and **jQuery**.*
